

Module Scheme Semester One

2022-23

Module Name:	Design Patterns		
Module Code:	CO664	Academic Year:	2022-23
Tutor(s):	Nicholas Day		
Tutor's Email:	nicholas.day@bnu.ac.uk	Tutor's Telephone:	ND: Ext. 3181 & contact via MS Teams

Learning Outcomes:

1. Interrogate and articulate the structures and intentions of major Design Patterns
2. Implement Design Patterns in one or more object-oriented languages
3. Evaluate, from requirements specifications/definitions, and propose Design Patterns appropriate to application architecture and implementation

Assessment Summary:

Assessment Task	Key Dates
CW1 Design Pattern Logbook and Report (100%)	Submission: Thursday 2 February 2023

Indicative Weekly Content

Week by Week Guide:	Teaching details
1. Week beginning: 26/09/2022 (Timetabling Week 1)	Introduction to the basics of Python and set up IDEs <u>Lesson Plan (weeks 1 & 2):</u>
2. Week beginning: 03/10/2022 (Timetabling Week 2)	[1] Presentation – Introduction to Python and Anaconda <u>Lesson Practical:</u> [2] Logbook Activity 1 – Python 1 – Variables and Lists [3] Logbook Activity 2 – Python 2 – List Manipulation [4] Logbook Activity 3 – Python 3 – Sets and Dictionaries
3. Week beginning: 10/10/2022 (Timetabling Week 3)	Revisit principles of good OO, Selection and Iteration <u>Lesson Plan:</u> [1] Presentation – Revisit OOP, Selection and Iteration <u>Lesson Practical:</u> [2] Logbook Activity 4 – Python 4 – Conditionals (selection, iteration & functions) [3] Logbook Activity 5 – Python 5 – Object Orientation (classes, objects, inheritance) <u>Lesson extended practical and/or self-study</u> [4] Logbook Activity 6 – Python Challenge: Extending MVC

4: Week beginning: 17/10/2022 (Timetabling Week 4)	<p>Design Patterns – MVC & Observer Pattern</p> <p><u>Lesson Plan:</u> [1] Presentation – MVC improved and the Observer DP</p> <p><u>Lesson Practical:</u> [2] Logbook Activity 7 – Extending the Observer pattern – Data science/visualisation exercise</p>
5: Week beginning: 24/10/2022 (Timetabling Week 5)	<p>Design Patterns – Creational Patterns 2x examples</p> <p><u>Lesson Plan:</u> [1] Presentation – Factory Method & Abstract Factory</p> <p><u>Lesson Practical:</u> [2] Logbook Activity 8 – Factory Method – Python tkinter widgets [3] Logbook Activity 9 – Abstract Factory – Python object families</p>
6. Week beginning: 31/10/2022 (Timetabling Week 6)	<p>Design Patterns – Behavioural Patterns 2x examples</p> <p><u>Lesson Plan:</u> [1] Presentation – Strategy & Iterator</p> <p><u>Lesson Practical:</u> [2] Logbook Activity 10 – Strategy – Data science/Computer vision with Open CV [3] Logbook Activity 11 – Iterator – Exposing Python's built-in iterators</p>
7. Week beginning: 07/11/2022 (Timetabling Week 7)	<p>Design Patterns – Structural Patterns 2x examples</p> <p><u>Lesson Plan:</u> [1] Presentation – Adapter & Decorator</p> <p><u>Lesson Practical:</u> [2] Logbook Activity 12 – Adapter – Data science/Geomatics with matplotlib & cartopy [3] Logbook Activity 13 – Decorator – Using both Python internal and bespoke decorators</p>
8. Week beginning: 14/11/2022 (Timetabling Week 8)	<p>Design Patterns – Creational & Structural Patterns 2x examples</p> <p><u>Lesson Plan:</u> [1] Presentation – Singleton & Composite</p> <p><u>Lesson Practical:</u> [2] Logbook Activity 14 – Singleton conventional – implement and confirm object addresses [3] Logbook Activity 15 – Singleton Borg – implement and confirm object addresses</p>
9. Week beginning: 21/11/2022 (Timetabling Week 9)	<p>Design Patterns – Creational & Behavioural Patterns 2x examples</p> <p><u>Lesson Plan:</u> [1] Presentation – Builder & Chain of Responsibility</p> <p><u>Lesson Practical:</u> [2] Logbook Activity 16 – select, explain and demonstrate a DP of your choice [3] Logbook Activity 17 – select, explain and demonstrate a DP of your choice</p>
10. Week beginning: 28/11/2022 (Timetabling Week 10)	<p>Design Patterns <u>in Java</u> – Command & Proxy 2x examples</p> <p><u>Lesson Plan:</u> [1] Presentation - using the SciJava kernel [2] 'Command' and 'Proxy' in Java and in Jupyter</p>

11. Week beginning: 05/12/2022 (Timetabling Week 11)	Design Patterns – Creational & Behavioural Patterns 2x examples <u>Lesson Plan:</u> [1] Presentation – Builder & Chain of Responsibility <u>Lesson Practical:</u> [2] Logbook Activity 16 – select, explain and demonstrate a DP of your choice [3] Logbook Activity 17 – select, explain and demonstrate a DP of your choice
12. Week beginning: 12/12/2022 (Timetabling Week 12)	Revision and module review
Timetabling Weeks 13-15	<u>Winter Break (3 weeks)</u>
13. Week beginning: 09/01/2023 (Timetabling Week 16)	Assignment Workshop
14. Week beginning: 16/01/2023 (Timetabling Week 17)	Assignment Workshop
15. Week beginning: 23/01/2023 (Timetabling Week 18)	Jupyter Logbook presentation tutorials
Week beginning: 30/01/2023 (Timetabling Week 19)	Assignment submission – Thursday 2 February
